# Fun With Airplanes Stencils (Dover Stencils)

## Synopsis

Six sturdy pre-cut outlines make it easy for youngsters to trace and color a commercial jet, a helicopter, a light plane, and three other aircraft. The open stencils require no cutting or punching out, and the simple shapes make tracing easy. Adults will also find these reusable designs a great way to add airplane appeal to a nursery, child's room, or classroom.

## Customer Reviews

My 4.5 yr old son loves using these to be able to draw stuff by himself. All we do is tear out the stencils, use some painters tape and he can easily stick on a stencil and start drawing. It's a good for me too, because I can't freehand most of this stuff!

These are nice little stencils at a great price. I am using them for painting furniture in the nursery. The paint wipes easily from these stencils. These are great for projects and I imagine they would be great for child artwork as well.

We make birdhouses and I had a request for one with airplanes on it. This stencil packet was exactly what I was looking for. The available choices were excellent, the paperweight just right. Very pleased with my purchase.

I was throwing my sons 1st birthday. The theme was vintage airplanes. I used these stencils along with glitter pens and brown lunch bags to make really awesome gift bags. I gave these books as favors as well.

Used these with paint and then wiped the excess paint off of the pages where it had gone outside the outlines, and the pages were tough enough to hold up even being damp. I framed 3 different airplane outlines and hung them above my son's bed for some cute homemade decor. I'm sure he will love using the stencils to trace once he's a little older (not yet 2).

They are a bit small but my grandson likes these. He traces these on paper and then colors them. His head is in the clouds with these.

For the price this paper product was not what I was expecting to get. I wished this was a cut in cardstock the paper would hold up longer. Very disappointed. Cynthia

All of these little stencil books really are awesome. They are soooo inexpensive and my 6 year old uses them ALL the time. They are really worth it. Happy
