## Customer Reviews

This is essential reading for anybody who is trying to lose weight but doesn't want to give up all those yummy drinks. All of the recipes are simple, easy to follow, health, and - most important of all - delicious! It has excellent ingredient recommendations, nutritional information, and tons of delicious recipes. I haven't tried them all, but I can personally vouch for a few. My favourite is the limeade - absolutely delicious!

The book is good for those who REALLY want to make their own sugar-free, gluten-free, etc drinks. However, a lot of the products used are not locally available and are somewhat expensive. Some of the recipes do use fresh products - fruit, herbs - so healthy and refreshing. I got this ebook free and glad I didn't have to pay for it. This book will only appeal to a certain segment of people - those that are truly into the low carb or Paleo lifestyle - since you have to go out of your way to get ingredients for many of the recipes.

This is a fantastic and informative book. I have been struggling to lose a few kilos for a few years now, even since I turned vegan. I have tried and failed with various fad diets and fasting. I love tasty fruit drinks and this book is full of recipes for my favourites and for ones I had not discovered yet. For health and weight loss it was for me the missing ingredient. I'm not really a whizz in the kitchen so I was pleased that the recipes were not complicated at all. The nutritional information is complete and very useful. A great book, definitely recommended. If you like healthy living it is a must.

Some great drink ideas!

Nice recipes.
