I honestly LOVE this cookbook. It has a lot of pictures of the finished dishes, all of which are easy to fix and don't require weird ingredients. It's a great cookbook to set the kids at the table with and say "hey, YOU guys pick the meals this week". It's THAT good, and you will not be disappointed. The

crocpot section is very good too and will be perfect for during the school year when our family's schedule gets hectic again. My family gives this cookbook the all thumbs up!!

This cookbook has awesome recepies that fill you up! Try the Beef Tortilla Bake, the Chicken Nacho Bake, Cheeseburger Calzones and so much more! Everything I have made from this cookbook has been a winner at my house. My boyfriend is a very picky eater, I am too, and we love these meals! They are so satisfying, low calorie and low in fat. And for the price, it should be a no-brainer. You need this cookbook!

This is a good book for people watching calories or diabetics watching carbs. There are nutrition facts for each recipe and helpful hints throughout the book.

I love the recipes in "Betty Crocker's Win at Weight Loss Cookbook". They're easy to make, simple ingredients and list the amount of time to prepare. The recipes are usually for 4-8 servings, however, only having two people to cook for, we found the left overs are great for other meals. In addition, we're losing a few pounds!
