### **Customer Reviews**

Very simple, concise and easy to understand . Other books have been overwhelming with way too much information. This book makes me think I can actually raise goats!

This book seems perfect for those of us who know little or nothing about how to get started with selecting, obtaining and caring for goats.

This is like the quick start guide for raising goats! So clear and concise and yet very thorough. I highly recommend it.

This book makes it easy to understand what all is needed to raise goats. I highly recommend this
