Customer Reviews

I bought this because it was the only one I could find in the Kindle store and I really wanted to try something in my new Oster rice cooker. First, there are not many recipes. The ones that are included are for large portions (use a pound of oysters plus all the other ingredients for example). Must be meant for a larger or more fancy rice cooker than mine. Many of the recipes contain seafood, so if you are allergic, I'd recommend against purchasing. It is never specified what kind of cooker author is using, yet he states to adjust water in some recipes as needed for your cooker. So I

will need to fail at a recipe to figure that out?!? That is why I bought the cookbook in the first place! Overall this is a disappointment. I will order an actual book from now.
