Customer Reviews

...but that's it. I haven't made it past the first recipe because I've been too busy laughing repeatedly about the "chicken bosoms" the recipe calls for, and trying to decipher all of the cooking instructions. If a book or cookbook was originally written in a different language and then translated into English, it would be nice to have that mentioned in the description. I'm glad I didn't waste any money on this since it was free when I got it.

This book is terrible... example: Don't evacuate the cover in between. Rehash the procedure twice more or until a stick embedded into the inside turns out neatly. Reads like the author does not have a good command of the English language.

Poorly written, recipes not interesting. Deleted book same day I purchased it. I would not recommend book. Recipes shown ounces for ingredients in lieu of normal measurements of cups or teaspoons etc.

I am in love with my rice cooker that I bought in August of 2014 and now, I have found some of the best recipes thanks to this book! I prefer to cook Basmati rice so any of these recipes would go great with it. Awesome book for meals that I can put in the rice cooker and forget.

I own a rice cooker and was looking for other things I could cook in it. I found this cookbook and it is full of some really delicious recipes for cooking in your rice cooker. Thank you and enjoy your meal and enjoy your day.

Great recipes and honestly everyone should have a rice cooker, it's simply a fantastic appliance. The recipes provide some variety and are not all similar. I have tried a couple so far and they were all quite different, which is obviously good for a recipe book.

Very good book, finally got the book that I was looking for because it teaches you a variety of recipes. Personally I really enjoy cooking and with this book, I learned a lot to make delicious meals for all occasions, I have received too many compliments in this great challenge that I have undertaken in the kitchen and all the credit I give to this book which has taught me a lot to cook.

There was no pictures or illustrations and the format was confusing and layout was poor. I did not care for the book and the recipes were not impressive!
